### Mission Critical Functions Surveys:

Mission Critical Function Surveys are designed to determine if the community is tending toward resilience or vulnerability. Respondents rated twenty six societal functions on a scale from Most Vulnerable (1) to Resilient and Sustainable (7).

### **Graph 2. Average Mission Critical Function Ratings for Each Function**

The Water Infrastructure and Food Security functions had average scores in the “Extremely Vulnerable” range. Shelter and Evacuations received the lowest ranking, followed by Renewable & Grid Energy and Environmental Health and Safety. The functions ranked the highest, and therefore regarded to be the most sustainable, were Communications and Transportation.
