

Downtown Orlando Community Report Mission Critical Functions Survey

Central Florida Florida Disaster Resilience Initiative Phase 1 Stage 2 2019

These materials were developed by Health Initiatives Foundation, Inc. in 2019. Surveys were conducted under the auspices of Health Initiatives Foundation, Inc.'s Florida Disaster Resilience Initiative, with funding from The Miami Foundation.

Surveying Completed

Survey Tools used in the Downtown Orlando area appear in the Appendices. Many Survey respondents in Downtown Orlando did not divulge their addresses. However, they did report the neighborhoods in which they live. All of these neighborhoods are located in the Orlando Metropolitan Area in Orange County, Florida.

Table 1. Census Block Groups Surveyed

Blue indicates Census Block Groups in the Central Business District of Orlando or Neighboring Neighborhoods.

Census Block Group	MCF	Housing & Emergency Shelter Surveys
120950103002	2	0
120950188002	1	0

Misson Critical Functions Surveys

The categories with the lowest average ratings were in the “Resilient” range; considered to be the most vulnerable functions by the respondents.

Vulnerability Scores graphed below are the average scores from the 20 respondents. The most vulnerable functions ratings were for Renewable vs Grid Energy, followed by the Education System, Agricultural Production Scale, and Water Infrastructure. The two functions ranked “Resilient and Sustainable” were Psychosocial Resilience and Value Chains. Value Chains provide resilience through local jobs and adequate banking and financial structure.

Graph 1. Average Mission Critical Function Ratings for Each Function

The 26 Mission Critical Functions are listed to the left of the bars on the graph.
