## Demographics

Although it is difficult to identify the Census Block Groups of residents who do not wish to divulge their addresses, the Kissimmee Census Block Groups in Table 3 had survey respondents who stated their addresses. More than half of the population of each Census Block Group is a minority population. The percent Minority Population ranges from 61% to 85%.

In all but one of the Census Block Groups, the Low income Population is over 50%, the Linguistically Isolated Population is at or greater than 12%, and the percent of the population with less than a high school education is 11% or more.

The very old and very young are vulnerable populations. The percentage of the population under age 5 ranged from 3% to 11% in the Kissimmee Census Block Groups. The percentage of the population over age 64 ranged from 4% to 14%. The linguistically isolated population ranged from 6% to 27% in the Census Block Groups surveyed.<sup>2</sup>
